Programme

SCIENCE IN BLOOM ..... 10 minutes

Montreal's Botanical Gardens provide a centre for observation and research as well as a beautiful display of the world's plant life. The actual process of plant growth is revealed by the time-lapse camera.

WHO WILL TEACH YOUR CHILD? ..... 30 minutes

A study of the teacher's vital role in the child's development. This film presents a challenge to all concerned—prospective teachers, parents, the community as a whole—for the teaching profession to receive true recognition, and the children to satisfy their need to know.

FIDDLE DEE DEE (colour) ..... 4 minutes

Awarded top honours in the arts, craft and music division of the "Film of the World" Festival. To the familiar tune "Listen to the Mocking Bird," the artist, painting on film, has interpreted in colour the nuances of the violin. The animation suggests the rapid unrolling of a fantastic textile.

INTERMISSION

R.C.M.P. FILE 1365 (The Connors Case) ..... 36 minutes

This film shows the work of the Royal Canadian Mounted Police as a law enforcement body. Through a hunt half way across Canada for a murderer, this dramatization of an actual case shows the modern methods used by the R.C.M.P. in criminal investigation.

IT'S FUN TO SING ..... 10 minutes

The camera catches the enthusiasm of sixty Toronto business girls who sing for the joy of it. The Leslie Bell Choir has earned a reputation which has created a demand for radio, television, recordings and public appearances.

Bill, please leave
all lights on for
Dorothy.
